GLASS LIFTER SERIES **GL-850DC**

IDEAL FOR VERTICAL AND OVERHEAD GLAZING

UNIVERSAL CRANE ARM

UNIVERSAL CRADLE

GLASS HOLDER ATTACHMENT

THE GL-850DC IS THE PERFECT SOLUTION FOR MANY PROJECTS

The GL Lifter is a compact and versatile material lifter for construction sites and workshops, but is also ideal for vertical and overhead glazing with optional accessories, and it operates via remote control.

The standard DC series units include a battery and charger, and the AC series operates from an AC motor. The quick folding base makes for easy set up for a single operator.

The GL Lifter includes many safety features such as adjustable legs which ensure the unit can be safely set up and leveled, an Anti-fall system on the mast and Auto-Safety kill switch which only is triggered by an operator that attempts to raise the unit beyond its maximum operating height.

JOB SITE 8

Job Site 8 is a North American distributor serving both the United States and Canada. The number 8 is widely regarded as a lucky number around the globe. If you look at the number, you'll realize it's lines never break, therefore representing infinity. Much like the *lucky number 8*, we wish to represent infinity; continue to serve our customers across the United States and Canada.
